Saunasell in Brief

Saunasell is one of the first manufacturers of outdoor saunas in Estonia. We have more than 14 years of experience in manufacturing of barrel and oval saunas, hot tubs, garden houses and garages.

In 2021 we expanded our production area and capacity significantly. Our high-quality log houses are produced by fully automatic Hundegger K2i production line.

Thanks to the capabilities of the Hundegger K2i production line and the experience of our employees in the production of a log houses (more than 25 years), we are also able to produce very complex projects.

In addition to the standard models, we also offer custom solutions. We ALWAYS meet the needs of our customers.

We offer following log profiles:

Massive log profiles: 40 – 152 mm

Laminated log profiles: 88 – 204 mm

In addition to Estonian market, our products can be seen all over the Europe and the United States. We have sold our products to more than 20 countries.

All from one factory – from a little hot tub to large living house!
